Process Analysis

I am using the process analysis text i wrote here on my portfolio site. These are the projects I will showcase:

<https://taylorliu.ca/works/turquoise-goat-trading-cards-ethnography-ux-illustration>

<https://taylorliu.ca/internships/aquanow>

Bio

(I wrote this bio recently. It is viewable on my website here: <https://taylorliu.ca/about>)

Hi, I'm Taylor, an aspiring designer and illustrator whose specialty is using bright colours and fantastical concepts to create whimsical design work. Born and raised in a family of fishermen in Vancouver, BC, I enjoy depicting fish and other aquatic creatures. My works also take inspiration from comics, games, folklore, and silly things I see online, because my favourite kind of art is the kind that makes people smile and laugh. I'm experienced in designing for web and print, using a variety of tools such as Figma, the Adobe Suite, Protopie, and Procreate. Thank you for visiting my portfolio.
